

## Let's Try It! Making a Bank

Everyone must make choices. Choosing to save has many benefits. Saving can help us meet a future want or need.

First, choose something to save for. Then find out how much money you need to save. Decorate each pig. Glue each square to one side of a small box. Cut a slit in the top of the box (or use a tissue box with an opening). You are ready to begin saving!

*Parents: Saving towards a goal can be a great way to learn about costs and benefits AND wants and needs. Try it out: Encourage your child to set a small savings goal. As they save, be sure to discuss whether the things that your child would like to buy are wants OR needs. Celebrate when your child reaches their goal!*
