New Low E windows could lower energy costs by 15%.

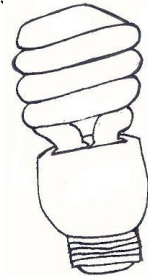

Find the most cost effective ways to help the earth AND save money!
Follow the **BEST** path!

Incandescent bulbs waste 90% of the energy they use.

Changing to solar power can cost over \$100,000. Outdoor solar lighting or water heaters may be more affordable.

If you buy 5 CFLs (compact fluorescent light bulbs), you could save \$226 over the life of the bulbs.

The US made 246 million tons of trash in 2005, but recycling can help! 32% of those 246 million tons of trash were recycled!
